

Microsoft Azure

Nerdio for Azure

The **definitive** Azure solution for MSPs

Build and rapidly grow your cloud practice in Microsoft Azure

Deploy

Automatically provision a complete IT environment in Azure within two hours and without the need for an experienced engineer.

Price

Nerdio's [Cost Estimator](#) makes pricing Microsoft Azure quick, easy, and error-free.

Package

Nerdio for Azure has three comprehensive plans to choose from, allowing you to easily find the right fit for your customers.

Manage

Easily manage every IT environment in just three clicks from a single pane of glass.

Optimize

Automatically scale up or down Azure resources including servers and desktops. Only pay for what's truly needed.

Nerdio for Azure Plans

From Infrastructure-as-a-Service to Desktop-as-a-Service to IT-as-a-Service, find the perfect plan for your customers.

	Core	Professional	Enterprise
User size	Can be used for any size organization	SMBs	Can be used for any size organization
Time to provision new IT environment	1 HR	2 HRS	2 HRS

“Nerdio for Azure truly enables you to take advantage of the Microsoft Azure platform in areas you may not have been able to before. It allows you to make more money, doing less, while deploying people in the cloud.”

Steve Schmalz,
Ability Technologies
