

# Cybersecurity Solutions from Kaspersky

For all business sizes, Intcomex Cloud offers the protection of Kaspersky, the leading brand in Cybersecurity solutions.

Regardless of the size of the business, it always needs protection. Intcomex Cloud, the leading distributor in cloud solutions has joined Kaspersky, the leading brand in security solutions, to make protection simple and easy to deploy and use.

Kaspersky offers a complete cybersecurity portfolio that caters to the specific needs of businesses of all sizes, from micro-enterprises to large corporations.

In the following chart, you will find the Endpoint solutions available for your clients:

Selection Criteria	Kaspersky Small Office Security	Kaspersky Endpoint Security Cloud	Kaspersky endpoint Security Cloud Plus	Kaspersky Endpoint Security for Business Select	Kaspersky Endpoint Security for Business Advanced
The ideal option for	Micro and small business	Businesses looking for instant, easy-to-use protection		Organizations with more sophisticated IT security needs	
Management Console	Cloud	Cloud		On-premises /Cloud for organizations with 300+ nodes	
What you need	Internet access and internet browser	Internet access and internet browser		Server to deploy the management console, and Internet access	
Scalability	From 5 to 49 users	From 10 to 999 users		From 10 devices, no limit	
Protection for	Windows File Servers Windows, Mac Computers Android Devices	Windows File Servers Windows Computers, and Mac iOS, and Android devices		Windows, and Linux servers Windows File Servers Windows, Mac, and Linux Computers iOS, and Android devices	
Licensing	<b>Per User</b> 1 user = 1 computer + 1 mobile device + 10% file server licenses	<b>Per user</b> 1 user = 1 computer or file server + 2 mobile devices		<b>Per device</b> Each device requires 1 license	
What you get	Installation without difficulties	Instant protection that is easy to use		Instant protection that is easy to use, enhanced flexibility and extended control	
Configuration	No IT administrator	IT Manager			

Knowledge necessary	Basic knowledge	General IT knowledge		Advanced IT knowledge	
It allows you to...	Monitor protection status	Manage enterprise protection			
Application Control				✓	✓
Web control	✓		✓	✓	✓
Device Control			✓	✓	✓
Vulnerability Analysis	✓		✓		✓
Security Policy Advisor		Predefined policy	Predefined policy	With the help of an assistant	With the help of an assistant
Cloud Discovery		Audit	Audit and block		
Protection or Microsoft Office 365			✓		
Patch Management	✓		✓		✓
Encryption	File-Level Encryption		✓		✓
Adaptive control of anomalies					✓
Server strengthening					✓
Installation of OS and Third-Party Software					✓
Product Updates		Always runs the latest software		Freedom to decide when to upgrade to the latest version with quick upgrade	
Extras	Safe Money Password Manager Data Backup				
Antispam	✓				

You will find below the solutions that meet different protection needs, depending on the different organization sizes, along with their main features:

Solution	Features (*depending on version)	Micro and Small	Medium	Enterprise	Monthly subscription (ICP)	Annual Licensing	Versions	Applications included (*depending on version)
 <b>Kaspersky Small Office Security</b>	<ul style="list-style-type: none"> <li>• Cloud Console</li> <li>• From 5 to 49 users</li> <li>• Managed directly by Kaspersky</li> <li>• Protects Windows and Mac laptops</li> <li>• Protects Android devices</li> <li>• Includes advanced ransomware protection</li> <li>• File encryption and backup</li> </ul>	✓			✓	✓	Single version	<ul style="list-style-type: none"> <li>• Kaspersky Small Office</li> <li>• Kaspersky Internet Security for Mac</li> <li>• Kaspersky Internet Security for Android</li> <li>• Kaspersky Password Manager</li> </ul>
 <b>Kaspersky Endpoint Security Cloud</b>	<ul style="list-style-type: none"> <li>• Cloud Console</li> <li>• From 10 to 999 users</li> <li>• Easy to manage</li> <li>• Protects Windows computers and file servers, Mac OS devices, iOS and Android mobiles and even Microsoft Office 365*</li> <li>• Detects and blocks* the use of cloud resources such as SaaS, social media, etc.</li> <li>• Perfect for geographically separated offices, and/or homeworkers</li> </ul>	✓	✓		✓	✓	Cloud Cloud Plus	<ul style="list-style-type: none"> <li>• Kaspersky Endpoint Security for Windows (for workstations and file servers)</li> <li>• Kaspersky Endpoint Security for Mac</li> <li>• Kaspersky Security for Mobile</li> <li>• Kaspersky Security for Microsoft Office 365*</li> </ul>
 <b>Kaspersky Endpoint Security for Business</b>	<ul style="list-style-type: none"> <li>• On-prem console /Cloud 300+ nodes</li> <li>• From 10 devices onwards</li> <li>• Robust, efficient and scalable</li> <li>• Protects servers and endpoints without impacting performance</li> <li>• Protects various environments: Windows, Mac, Linux, iOS and Android</li> <li>• Detects vulnerabilities and closes them to reduce attack entry points*</li> <li>• Automate OS and software deployment tasks*</li> <li>• Encrypts information to prevent data leak damage on a lost device*</li> <li>• Scans inbound, outbound, and stored email*</li> </ul>		✓	✓	✓	✓	Select Advanced Total	<ul style="list-style-type: none"> <li>• Kaspersky Endpoint Security for Windows</li> <li>• Kaspersky Endpoint Security for Linux</li> <li>• Kaspersky Endpoint Security for Mac</li> <li>• Kaspersky Security for Windows Server</li> <li>• Kaspersky Security for Mobile</li> <li>• Kaspersky Security Center</li> <li>• Kaspersky Security for Linux Mail Server*</li> <li>• Kaspersky Secure Mail Gateway*</li> <li>• Kaspersky Security for Microsoft Exchange Servers*</li> <li>• Kaspersky Web Traffic Security*</li> </ul>

Solution	Features (*depending on version)	Micro and Small	Medium	Enterprise	Monthly subscription (ICP)	Annual Licensing	Versions	Applications included (*depending on version)
 <b>Kaspersky Endpoint Detection and Response Optimum</b>	<p>EDR capabilities from the same Endpoint for Business console, allows:</p> <ul style="list-style-type: none"> <li>• Protects from 10 devices onwards</li> <li>• Imports IoC (Indicators of Commitment) from trusted sources and run periodic scans to detect signs of an attack</li> <li>• Carefully investigates an alert, generates IoC based on discovered threats, and runs network-wide scans to find out if other hosts have been affected</li> <li>• Automatically quarantines files associated with complex threats on all endpoints</li> <li>• Automatically isolates infected hosts when finding an IoC associated with a rapid spread threat</li> <li>• Prevents malicious file from running and spreading across the network during investigation</li> </ul>		✓	✓		✓	Only	<ul style="list-style-type: none"> <li>• Kaspersky Endpoint Agent</li> </ul>
 <b>Kaspersky Hybrid Cloud Security</b>	<ul style="list-style-type: none"> <li>• Desktop version protects from 10 devices, while the Server and CPU version protects from 1 onwards</li> <li>• Proven security for virtual and physical servers</li> <li>• Protects workloads in public clouds, including Azure, AWS, and Google Cloud infrastructures</li> <li>• Enables single-point management of the entire hybrid infrastructure</li> <li>• File, Process, and Memory Protection</li> <li>• Web and Device Security Controls</li> <li>• Application Control for Desktop Operating Systems</li> <li>• Anti-Cryptor for Shared Folders</li> <li>• Vulnerability detection and patch management*</li> </ul>		✓	✓	✓	✓	<ul style="list-style-type: none"> <li>Desktop</li> <li>Server</li> <li>CPU</li> <li>Enterprise</li> <li>Desktop</li> <li>Enterprise</li> <li>Server</li> <li>Enterprise</li> <li>CPU</li> </ul>	<ul style="list-style-type: none"> <li>• Kaspersky Security for Virtualization Agentless</li> <li>• Kaspersky Security for Virtualization   Light Agent</li> <li>• Kaspersky Endpoint Security for Linux</li> <li>• Kaspersky Security for Windows Server</li> <li>• Kaspersky Endpoint Security for Windows</li> <li>• Kaspersky Security Center</li> <li>• Kaspersky Hybrid Cloud Security for AWS</li> <li>• Kaspersky Hybrid Cloud Security for Microsoft Azure</li> <li>• Kaspersky Hybrid Cloud Security for Google Cloud</li> <li>• Kaspersky Hybrid Cloud Security for DevOps*</li> </ul>
 <b>Kaspersky Security for Microsoft Office 365</b>	<ul style="list-style-type: none"> <li>• Protects from 5 mailboxes onwards</li> <li>• Protects mail and storage components of Exchange Online, OneDrive, SharePoint Online, and Teams</li> <li>• Advanced Threat Protection: Antiphishing, Anti-Malware, Anti-Spam, Removal of Unwanted Attachments and On-Demand Protection</li> <li>• 20% more effective than Microsoft's built-in protection with 99.6% anti-malware detection rate</li> </ul>		✓	✓	✓	✓	Single version	<ul style="list-style-type: none"> <li>• Kaspersky Security for Microsoft Office 365</li> </ul> <p><a href="https://youtu.be/CbqjV_ESOe0">https://youtu.be/CbqjV_ESOe0</a></p>

Solution	Features (*depending on version)	Micro and Small	Medium	Enterprise	Monthly subscription (ICP)	Annual Licensing	Versions	Applications included (*depending on version)
 <b>Kaspersky Security for Mail Server</b>	<ul style="list-style-type: none"> <li>Protects from 10 mailboxes onwards</li> <li>For Microsoft Exchange and Linux-based mail servers</li> <li>Filtering malicious or unwanted emails (incoming and outgoing)</li> <li>Fast and accurate processing of legitimate emails</li> <li>Email protection beyond the gateway</li> <li>Multilayer Malware Protection</li> <li>Automated Anti-Spam</li> </ul>		✓	✓	✓	✓	Single version	<ul style="list-style-type: none"> <li>Kaspersky Security for Linux Mail Server</li> <li>Kaspersky Secure Mail Gateway</li> <li>Kaspersky Security for Microsoft Exchange Servers</li> <li>Kaspersky Security Center</li> </ul>
 <b>Kaspersky Security for Internet Gateway</b>	<ul style="list-style-type: none"> <li>Available from 10 licenses (license per node under Internet Gateway)</li> <li>Delivers multi-layer gate-level protection against the latest Internet-based threats</li> <li>Blocks infections before they can reach their endpoints</li> <li>Immediately complements your existing gateway-level defenses</li> <li>Reduces your exposure to attacks by controlling the use of Internet resources</li> <li>Helps detect advanced attacks and provides automated response</li> </ul>		✓	✓	✓	✓	Single version	<ul style="list-style-type: none"> <li>Kaspersky Web Traffic Security</li> <li>Kaspersky Security for Windows Server</li> </ul>
 <b>Kaspersky Sandbox</b>	<ul style="list-style-type: none"> <li>Protection from 250 devices</li> <li>Ideal add-on for Kaspersky Endpoint Security for Business, with advanced detection scenarios for new threats</li> <li>Automated response to advanced threats</li> <li>Running Suspicious Objects in an Isolated Environment from Real Infrastructure</li> <li>Sending the real-time verdict to the shared operating cache</li> </ul>		✓	✓		✓	Single version	<ul style="list-style-type: none"> <li>Kaspersky Sandbox</li> </ul>
 <b>Kaspersky Security for Storage</b>	<ul style="list-style-type: none"> <li>User version protects from 10 nodes, while the Server version protects from 1 onwards</li> <li>Robust, scalable, and high-performance protection for valuable, sensitive corporate data stored on DELL EMC, NetApp, Hitachi, HPE, Nutanix, Oracle, and IBM systems</li> <li>Uninterrupted NAS Protection</li> <li>Ransomware Protection for NetApp NAS</li> <li>Security for any file-related operation</li> <li>Resource efficiency (load balancing and fault tolerance), does not affect server performance</li> </ul>		✓	✓	✓	✓	User Server	<ul style="list-style-type: none"> <li>Kaspersky Security for Network Attached Storage Protection</li> <li>Kaspersky Security Center</li> </ul>

Solution	Features (*depending on version)	Micro and Small	Medium	Enterprise	Monthly subscription (ICP)	Annual Licensing	Versions	Applications included (*depending on version)
 <b>Kaspersky Endpoint Detection and Response</b>	<ul style="list-style-type: none"> <li>Standard version protects from 100 nodes, while the Advanced version protects from 500 nodes onwards</li> <li>Ideal add-on for Kaspersky Endpoint Security for Business</li> <li>Enhanced threat detection and consolidated investigation process</li> <li>Guided research and faster and more accurate response</li> <li>Helps eliminate security breaches and reduce the attacks "stay time"</li> <li>Automates manual tasks during threat detection and response</li> <li>Allows IT and IT security staff to engage in other important tasks</li> </ul>		✓	✓		✓	Standard Edition Advanced Edition	<ul style="list-style-type: none"> <li>Kaspersky Endpoint Detection and Response</li> <li>Kaspersky Endpoint Agent</li> </ul>
 <b>Kaspersky Automated Security Awareness Platform</b>	<ul style="list-style-type: none"> <li>Available from 5 licenses (license per user)</li> <li>100% online cybersecurity awareness platform for end users (employees)</li> <li>200+ lessons grouped into 3 levels of complexity, and 6 core topics</li> <li>Available in more than 9 languages (including Spanish)</li> <li>It adjusts to each employee's individual pace and learning skills, and provides you with usable reports and recommendations</li> <li>Issuance of certificates for approval of levels</li> </ul>	✓	✓	✓	✓	✓	Single version	<ul style="list-style-type: none"> <li>100% online, no installation required</li> </ul>
 <b>Kaspersky Cybersecurity Services</b>	<ul style="list-style-type: none"> <li>Threat Intelligence</li> <li>Security Assessment</li> <li>Threat Hunting</li> <li>Incident Response</li> <li>Security Training</li> </ul>			✓		✓	Services	
 <b>Kaspersky Premium Support</b>	<ul style="list-style-type: none"> <li>Incident response SLA (priority support line)</li> <li>Custom Patches</li> <li>Single point of contact</li> <li>Access to the world's leading experience</li> </ul>		✓	✓		✓	Certificate	
 <b>Kaspersky Professional Services</b>	<ul style="list-style-type: none"> <li>Deployment</li> <li>Configuration</li> <li>Health Check</li> <li>Product Trainings</li> </ul>	✓	✓	✓		✓	Services	

With the best business model, you can opt for the **monthly subscription payment method**, or annualized licensing, whichever is most convenient for your organization.
