# Advanced Management

From Acronis Cyber Protect Cloud

## KEEP YOUR CUSTOMERS' SYSTEMS UP-TO-DATE AND SIMPLIFY PROTECTION MANAGEMENT

With Advanced Management, service providers can spend less time managing multiple solutions and more to protect your customers' data, applications, and systems. The add-in allows you to automate patch management and makes it easier to schedule work to reduce administrative tasks.

## DELIVER MORE SERVICES AND REDUCE THE ADMINISTRATIVE WORK OF DATA PROTECTION

### ADVANCED PATCH MANAGEMENT

Keep your customers' systems up to date and close security breaches with vulnerability assessments and managed patch management.

### AUTOMATING PATCH MANAGEMENT

With automated patch management for more than 200 compatible applications and a fail-safe patching technology, save time and effort.

### COMPREHENSIVE MANAGEMENT TOOLS

Simplify planning with software inventory, reporting scheduling, and disk drive health monitoring.

PROACTIVELY PREVENT VULNERABILITIES FROM BEING EXPLOITED	INCREASE SERVICE EFFECTIVENESS AND REDUCE MANAGEMENT COMPLEXITY	SIMPLIFY YOUR WORKFLOWS AND SAVE RESOURCES
