<ul style="list-style-type: none"> • Sync and share from any device: compatibility with iOS and Android smartphones and tablets, Windows PCs and Mac computers, as well as all web browsers. • Folder sharing • PDF editing and annotation tools • Unlimited version control • Audit trail section: shows the history of all activities • Encryption at rest and in transit • Two-factor authentication • Access control for files and folders, regulatory controls for users, applications, and data 	<ul style="list-style-type: none"> • Remote file certification: increase the credibility of a document • Integrated electronic signature: execute all the steps of the flow of I work with client documents, from creation to distribution and obtaining signatures from several people. • Authentication and signature certificates: Provide irrefutable proof that a file was authenticated or signed at a specific time. • Independent and trusted verification

BUILT FOR SERVICE PROVIDERS

Simplified management

Spend less time managing customers with a multi-tenant architecture designed for service providers. Leverage a winning approach that employs an agent, console, and license.

Ownership and governance

Help customers meet compliance, data sovereignty, and performance requirements. Let them choose and control the region and data center that stores their data.

Rapid deployment

Reduce the required file sync and sharing deployment time to a few minutes and eliminate the need for additional configurations.

Take advantage of the agent's auto-update auto-update functionality.

Observance and compliance

Acronis information security policies and processes are based on widely-accepted international security standards and regulations, such as ISO 27001, NIST, GDPR and HIPAA.

Easy-to-use web interface

With its intuitive end-user interface, Acronis Cyber Protect Cloud with Advanced File Sync and Share ensures a quick start and eliminates the need for customer training.

Practical consumption-based pricing system

Start earning revenue immediately with a low barrier to entry for customers and competitive pay-as-you-go (PAYG) pricing. No hidden or upfront costs.
